NetDirector provides 360° Military Compliance Automation

Tampa, FL — August 25, 2011 – NetDirector, provider of a centralized data exchange service, today announced the availability of their 360° Military Compliance automation suite. In the wake of new servicer requirements for Military/SCRA compliance - NetDirector offers a full array of automated transactions to ease the burden for our attorney/trustee and vendor clients. Customers can automate portions or all aspects of compliance. This automated approach saves significant labor costs, improves data accuracy, and reduces compliance risk.

NetDirector's 360° Military Compliance offers the following automated components:

1. Military Search (Department of Defense) with or without SSN – NetDirector returns Military Status and Certificate within minutes.

2. LPS Desktop automation includes:

    o SCRA Referral intake

    o Document Upload (Certificate)

    o Milestone Event Update (SCRA Review)

3. CoreLogic VendorScape automation includes:

    o Document Upload (Certificate)

    o (2) Milestone Events (Add and Complete Production Task)

        ▪ Send 3 times during life of the file

"We continue to differentiate our integration services in the market by helping our customers adapt to an ever changing landscape", said Harry Beisswenger, chief operating officer at NetDirector. "Our 360° Military Compliance services will allow our firms to reduce headcount by eliminating numerous manual tasks and system updates. As more regulations and requirements permeate the industry - we will focus on providing automated integration services to mitigate the impact."

About NetDirector

NetDirector provides a Software as a Service (SaaS) based centralized data exchange to improve process efficiency and standards compliance. NetDirector partners with its subscribers to provide a solution that allows them to move data and documents securely with a myriad of industry trading partners, including, a national attorney/trustee network, mortgage loan servicers, title providers, process servers, publications and many more. Premium services include: Bankruptcy PACER Suite, NetCorrect Address Validation/Correction, NetExtract Document to Data Conversion, and NetTracker Docket Monitoring. NetDirector now processes more than **4 million data and document transactions** each month. NetDirector was recently named to the prestigious Inc.5000 list and is the 85th fastest growing software company in the nation. For additional information, visit www.netdirector.biz.
