

Description

eRecording automates the recording of medical lien documents to save time, increase productivity, and increase revenue by eliminating unnecessary paperwork. This process of securely recording liens delivered electronically, would otherwise be sent by mail or courier.

eRecording Features & Benefits

- ◆ The solution creates an electronic collaboration backbone between the submitter of the lien and the county
- ◆ The eRecording solution gets lien documents and recording fees from the filer to the courthouse electronically
- ◆ Recorded documents often returned to filer in minutes
- ◆ 66% of the U.S. population lives in a county that is eRecording enabled

eRecording Steps

1. Lien Creation—the filer creates the lien
2. Submission—upload the platform and select county; submit
3. Review—recorder reviews documents (Reject or Accept)
4. Record—documents are stamped and recorded
5. Return—stamped and recorded documents are delivered to the filer

Pricing

- ◆ eRecording cloud-based pricing is based on a per lien recorded model. Requires a submitter agreement with Simplefile.
