

Equator Integration

Streamline your Equator workflow with powerful cloud-based integration.

NetDirector has developed a zero-footprint integration option for default servicing firms utilizing Equator. The integration includes automation for Equator Orders and Deliverables (bidirectional).

Integration Features

- Automate and connect to Equator for Ocwen Foreclosure Orders, Bankruptcy Orders and Deliverables
- Automate and connect to Equator for Fannie Mae Closing Orders, Eviction Orders, Title Orders, and Deliverables
- Thoroughly tested and developed in collaboration with Equator
- Other servicer integrations are available for future development

Key Benefits

- Reduce time spent on data entry
- Improve compliance and accuracy by reducing errors and ensuring completion of business processes
- Increase efficiency while reducing labor stresses of developing and maintaining integrations in-house
- Subscription pricing - your costs match your transaction volume!
